FOURTH COVER

# Introduction.

Ceratile is a trusted sourcing partner dedicated to delivering the right products, at the right time, and at the right price. Working closely with customers, interior designers, developers, and quantity surveyors, the company streamlines the procurement process by identifying high-quality materials that meet both design intent and budget requirements. With a strong focus on reliability and value, Ceratile ensures every project is supported with precision, efficiency, and excellence.

# SLABS

A slab tile is an exceptionally large-format tile, typically made of porcelain, ceramic, or natural stone, designed to cover walls, floors, and countertops with minimal grout lines. These tiles create a seamless, continuous, and luxurious appearance

# Introducing Porcelain Slabs

Porcelain tiles originated in China during the Tang Dynasty (618–907 AD), evolving from high-fired kaolin clay known for extreme durability and beauty. Initially a closely guarded secret, these tiles were exported globally before being replicated in Europe during the 18th century. Modern technology now allows for mass production of diverse designs, transforming them into a staple for residential and commercial spaces.

# Introducing Grantie Slabs

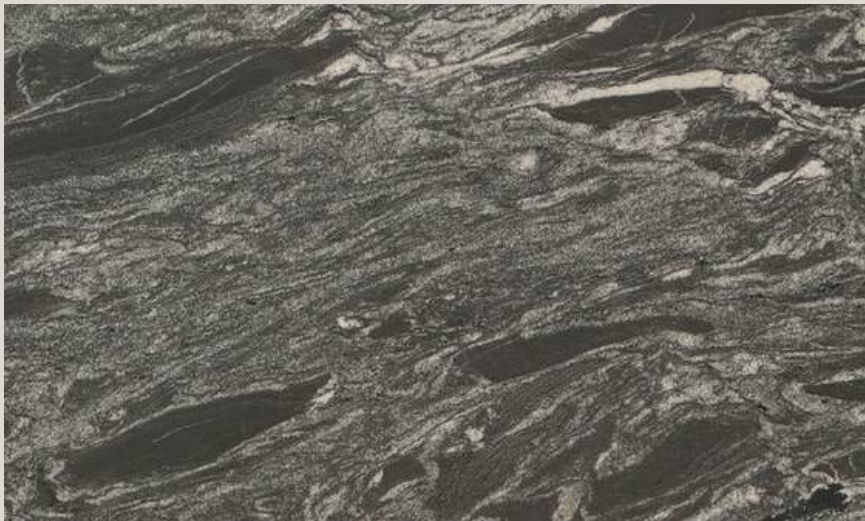

As the oldest igneous rock in the world, it's no wonder granite is synonymous with opulence and grandeur. First formed 300 million years ago, this sturdy rock has a rich history. Granite's created when molten stone, also known as magma, cools. After which, it slowly crystallises long before it can reach the earth's surface. Ancient monuments and buildings made from granite are still standing today – while the modern use of this durable stone remains popular thanks to the wide variety of available colours. Learn more about this classic stone as we look deeper into its history and how it is used in design today.

# Granite Collection

## AUTUMN BROWN

---

The beauty of natural stone is that it instantly creates an atmosphere, whatever the application. Autumn Brown delivers a riveting and moody performance with its medley of flame orange, moss-green and cream highlights.

## SILVER PARADISO LEATHER

---

The bold moody style of Silver Paradiso Leather has a contemporary masculine feel with a dark grey background and handsome white patterning swirled throughout. The monochrome palette lends itself to a variety of designs but shines in ultra-modern spaces.

## COLONIAL WHITE

---

If Colonial White was an ice cream flavour it would be Cookies & Cream. This vanilla and choc chip mix creates a modern granite with mostly even patterning. Colonial White would complement its opposite, dark tones in a kitchen, bathroom vanity, butler's kitchen or even workstation context.

## IVORY FANTASY

---

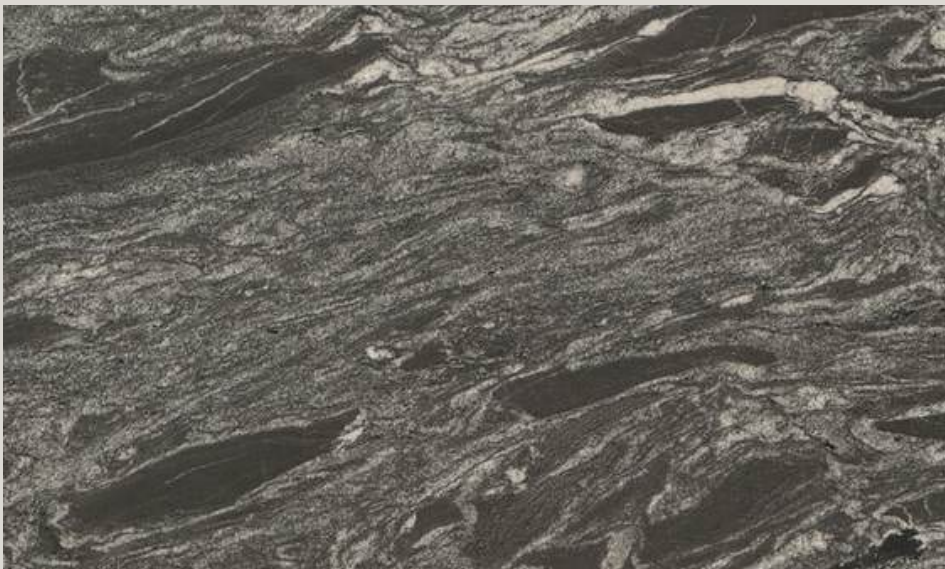

Cream, tan, beige and black are the predominant hues of Ivory Fantasy granite – an easy-on-the-eyes, contemporary granite surface suitable for hotels, commercial spaces and residential installations.

# Granite Collection

## SILVER PARADISO

---

Silver Paradiso granite can often be confused with marble due to its swirling patterns and fine graining. However, on close inspection it becomes easier to discern the grainy patterning that is one of the defining differences between the two natural stones.

## SILVER PARADISO LEATHER

---

The bold moody style of Silver Paradiso Leather has a contemporary masculine feel with a dark grey background and handsome white patterning swirled throughout. The monochrome palette lends itself to a variety of designs but shines in ultra-modern spaces.

## COLONIAL WHITE

---

If Colonial White was an ice cream flavour it would be Cookies & Cream. This vanilla and choc chip mix creates a modern granite with mostly even patterning. Colonial White would complement its opposite, dark tones in a kitchen, bathroom vanity, butler's kitchen or even workstation context.

## TITANIUM GOLD LEATHER

---

Titanium Gold Leather is a moody dark granite slab that brings a strong aesthetic to your space. A night sky black background is streaked with cloud-like colour bursts of gold with a mother of pearl quality, complemented by finer grey striations that further enhance the fluid sense of movement in this dramatic natural stone. The leather-like finish of this stone offers a soft sheen and beautifully textured appearance.

## TITANIUM LEATHER

---

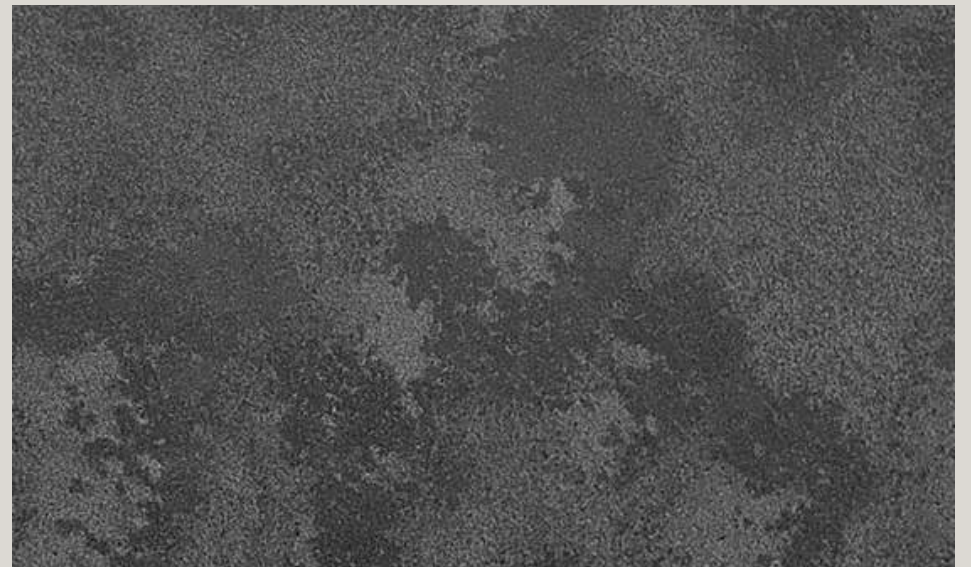

Titanium Leather carries you to a faraway place with its galaxy-like patterning and deep grey background. Constellations of white specs paired with swirling cloud-like formations create a dreamy surface further enhanced by the matte sheen and textured appearance of a leather finish

## MYSTIC GREY SATIN

---

Mystic Grey Satin is a natural stone that's famous for its light grey base colour with darker shades. With a tactile finish, Mystic Grey Satin dramatically captures the granular look and feel found in moody, bold interiors.

## IVORY WHITE

---

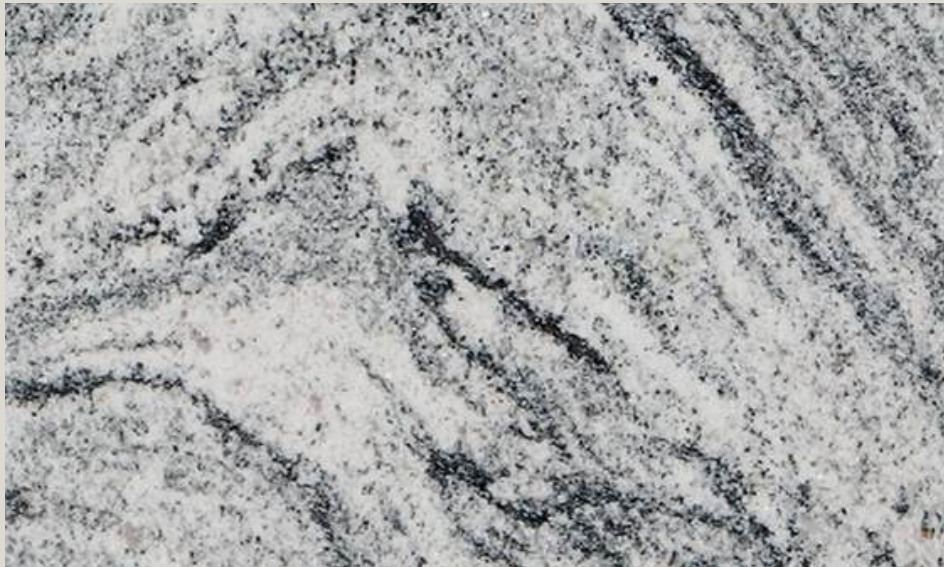

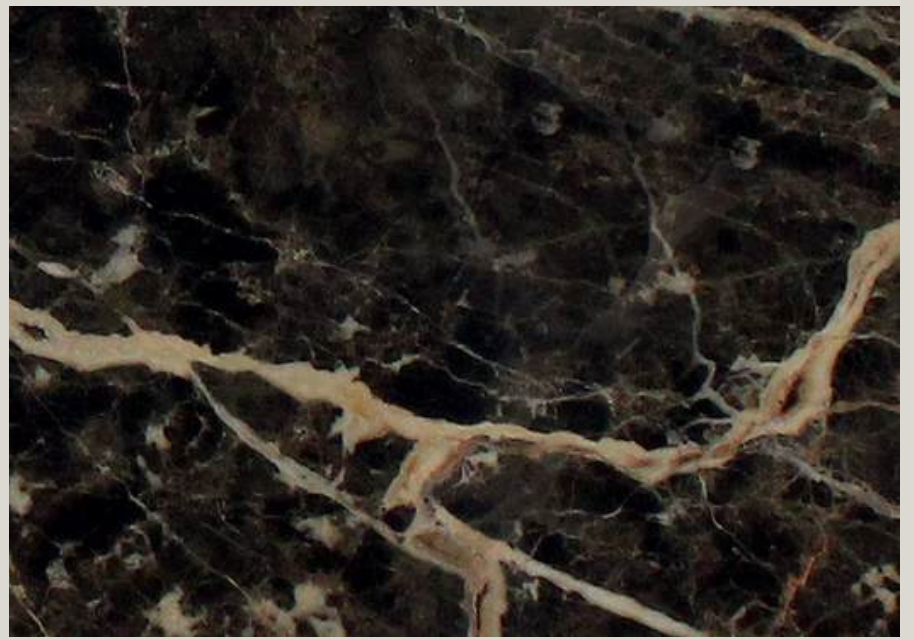

Ivory White possesses a smooth, even texture and polished surface, with a white background along thin, wavy veins of dark grey and black.

## Granite Collection

## MARRON EMPERADOR DARK

---

Marron Emperador is a supernova of plush, velvety brown, winter white and cream streaks with exceptionally striking veining. The brown tones create a warmth about this beautiful, classic marble, making it a popular choice across design styles.

## VISCON WHITE

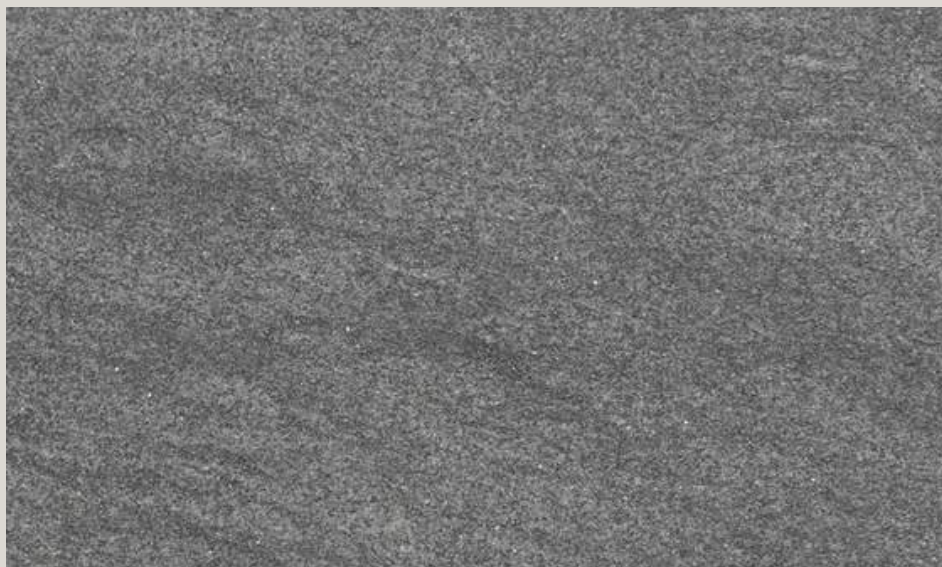

---

Viscon White is granite's answer to marble. With a mixture of black, white and grey tones, the fine granite granules almost mimic the organic swirls and marbling patterns usually found in marble materials. This exotic granite material, as with marble, needs regular care and maintenance to avoid stains.

## BLUE PEARL

---

Blue Pearl Granite is a truly exotic granite, showcasing a high percentage of large, reflective, duckegg blue pieces, which give this natural stone a magical feeling. To get the best use out of this stone, ensure the material is exposed to some natural light in order to maximise on the reflective nature of the granite. If this granite is not quite what you're looking for, a similar granite to consider is Labradorite Blue.

## BLACK VERMONT

---

Black Vermont is an elegant, slate-grey granite with minimal movement. Its simple colour palette allows Black Vermont's texture to take centre stage, making this the ideal surface for a stylish, monotone design scheme. Granite is a natural stone that requires regular maintenance. Consult your fabricator for instructions on how to care for your granite surfaces.

## IVORY PEARL

---

Dark and light play against each other in Ivory Pearl, making for a visually interesting natural stone. The light grey background is littered with black and light brown specks and lines, with the occasional shade of red – adding to its depth.

## COSMOPOLITAN

---

Cosmopolitan embodies deep black, gold, and reddish-brown tones with delicate diagonal veins that create a dynamic and dramatic pattern.

## GIALLO ORNAMENTALE

---

Giallo Ornamentale has a speckled, and textured appearance, with warm, sandy beige, with darker brown flecks and an earthy feel creating an organic pattern.

## VINTAGE CRYSTAL

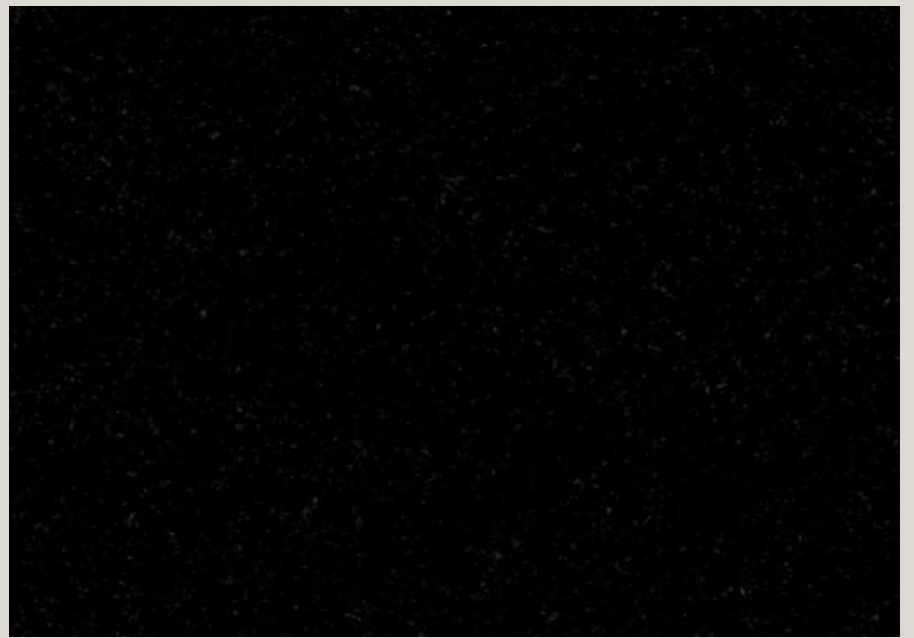

---

Vintage Crystal has a beige foundation with scattered brown and greyish-white tones. The textured surface has an organic, earthy appearance that makes it ideal for countertops, wall cladding, and decorative design applications.

## ZIMBABWE

---

Shows a deep black base with a texture rich in specks and subtle imperfections, creating a slightly fuzzy or blurred effect that adds depth and character to its appearance.

## ANDROMEDA WHITE

---

Displays a light-coloured base, primarily off-white or pale grey with intricate natural patterns and veining, consisting of darker grey and subtle, scattered specks. The design has a soft, organic flow, giving it a versatile and timeless style.

## VERDE UBATUBA

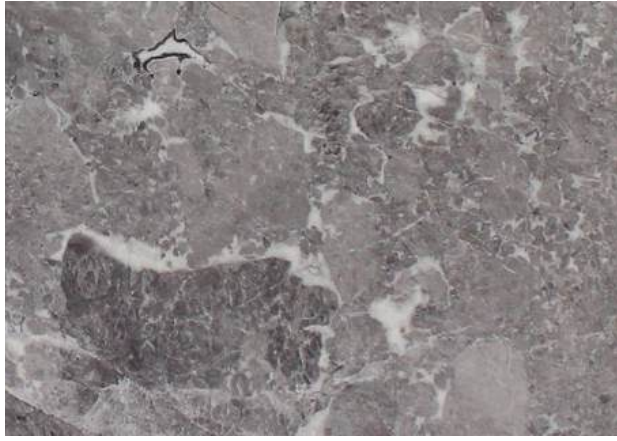

---

Has a dark background with speckled green, grey and white spots. It is a popular choice for countertops, backsplashes, and other interior design elements due to its durability and aesthetic appeal.

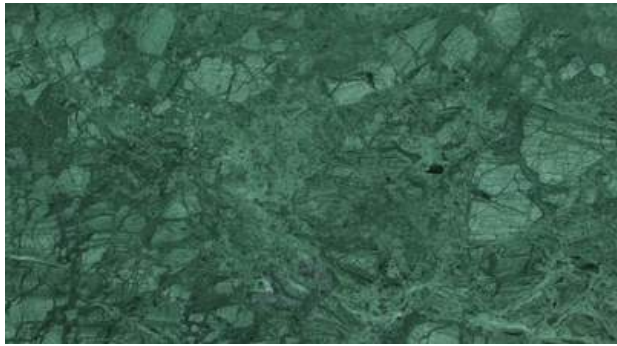

# Introducing Marble Slabs

Marble is a timeless natural stone used for centuries in construction and decorative arts. It has a rich history that dates back to ancient times, where it was used for some of the world's most iconic architectural landmarks. Today marble is admired and appreciated in interior design for its enduring beauty and wide variety of colours and uses. Discover more about this ancient stone as we look deeper into its past and how it is used in the present.

## Grey Ice

If Grey Ice marble was a person, it would be the tragic protagonist, Heathcliff, of *Wuthering Heights* – rugged, wild, yet romantic. With mottled shades of black, gunmetal grey and dove grey, Grey Ice can make a bold impression in any interior or exterior application.

## Verde Guatemala

Verde Guatemala marble is as eye-catching as it is exotic. With an emerald green base and swirling, black veins, this marble material can help to effortlessly create intrigue and drama in any space.

## Pietra Grey

With an earthy, grey background and its white, streaky veins, Pietra Grey is an understated, classic marble material suitable for moody spaces, serious interiors or nature-centric interiors.

## Rain Grey

Rain Grey's blue-grey undertones and fine networks of winter white veins offer the traditional look of marble. Rain Grey is ideal for column cladding, commercial buildings and lobbies, or even residential developments.

## Nero Marquina

Nero Marquina is a dramatic, black marble with a mixture of delicate and full white lightning strikes across its breadth. Nothing says sophistication like the classic, yet stark pairing of black and white tones – even more so when they're woven together by nature.

## Silver Waves

Silver Waves marble is a showstopper piece. With linear striations running diagonally across each slab in its characteristic black, white and grey, a closer inspection of this marble reveals organic movement and veining that seeps between the alternating streaks.

## Bardiglio Wave Leather

Bardiglio Wave is the name of an Italian marble where the main varieties are found in the neighborhood of Carrara and in Corsica. This particular marble variety shows a dark grey or bluish background traversed by white veins.

## Striato Olimpico

With its unmistakable patterns, Striato Olimpico shows off its stepped, horizontal, grey-and-white striations to perfection. Natural marble is a relatively soft stone that needs regular maintenance and sealing.

## Arabescato

If you like the idea of a traditional white and grey marble, but with a twist, you will enjoy Arabescato. An even combination of dense, grey and tan organic veins across a translucent, white background, Arabescato marble is one of nature's more audacious designs.

## Bianco Carrara

Bianco Carrara is probably the marble that comes to mind when anyone mentions 'marble'. It was often the material of choice used to create many famous marble sculptures, such as the world-famous 'David' by Michaelangelo.

## Rainforest Brown

This exquisite marble carries the wild, earthy colouring of South Africa's gold tiger's eye semi-precious stone. With a cloudy background of ochre, tan and ivory tones, Rainforest Brown explodes with intricate branches of deep brown veining across the surface's foreground.

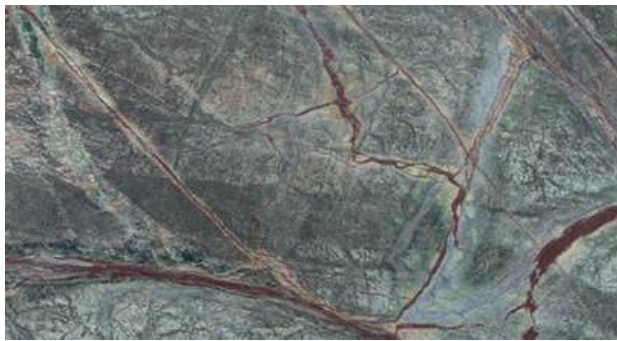

---

## Monet Sky

This enchanting marble is aptly named after the French impressionist, Claude Monet. Bronze and blue pearl tones streak violently across the marble surface creating a veritable artwork designed by Mother Nature herself.

---

## Rainforest Green

Rainforest Green is a rich and complex marble that carries incredible depth in its makeup. Hues of emerald, moss, stone, turquoise, merlot and powder shoot across each slab in a flurry of lines and interconnections.

---

## Ocean Blue

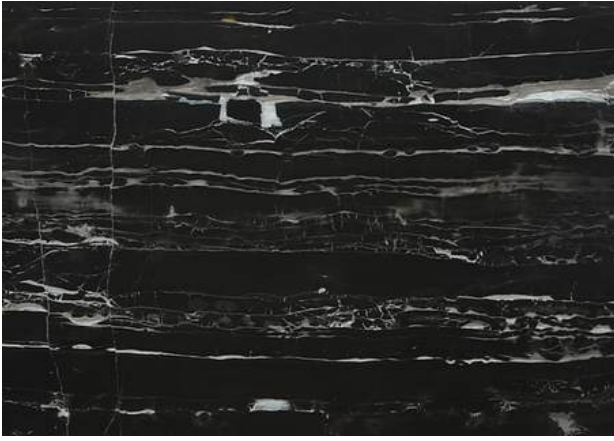

Ocean Blue marble's deep grey tones and powerful veining carries a strong presence that can be played up as a design feature, or muted to complement any design scheme.

---

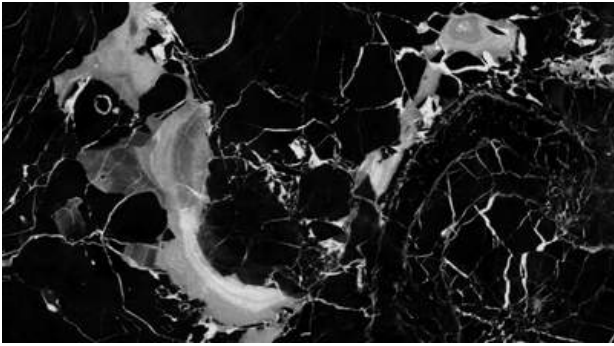

## Golden Portoro

Reminiscent of the majestic Nero Fierito marble, Golden Portoro is equally captivating. With a strong black and white mosaic motif, Golden Portoro is interlaced with soft terracotta tones throughout each slab.

## Nero Silver

A rich black marble with inconsistent, but very distinctive, silvery-white veining patterns that run horizontally across the slab. This marble will bring an authentic organic movement and feeling into your home.

## Nero Fiorito

Nero Fiorito is a fierce black marble with ash-grey veining and white highlights. Loosely translated as 'black flower', with naturally occurring three-dimensional optical illusions this marble deserves centre stage in every design it graces.

## Panda White

Panda White is a striking black and white marble with dramatic feature veining in jet black, supported by wistful soft veins in pale grey. Consult your fabricator for specific care and maintenance instructions to ensure your Panda White marble gets the care it needs and deserves.

## Arctic Sky

Arctic Sky is named after the North Pole for good reason. Its scattered winter white, grey and black veining evokes images of the tundra, with pops of pastel blue a reminder that Spring is always around the corner.

## Cipollino Rosso

This artistic marble can't help but captivate its admirers. Displaying the characteristic blended, yet distinct tones of the cipolin marble family, this unique natural stone combines muted, ruddy hues with tar-black and meringue-white veins.

## Silver White

Silver White marble captures an organic, industrial look and feel that is right on trend. With pale grey and white veining, Silver White's paint-and-concrete milieu can be compared with Bardiglio Wave (Leather Finish), which offers a more intense colour palette.

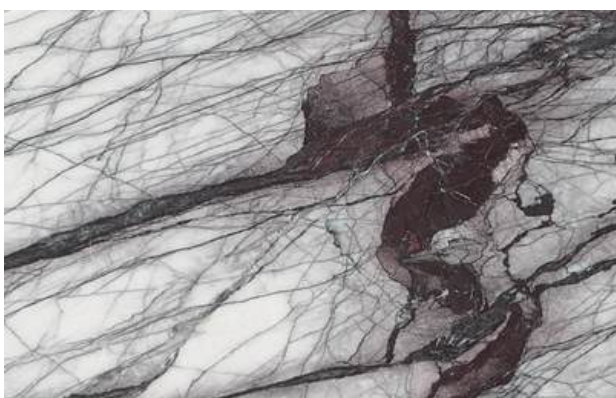

## Sahara Noir

Elegant and timeless, this marble will never go out of style. With a pitch-black backdrop and rich gold and white veins, Sahara Noir has finally arrived to bring a new depth of style to your space.

## Travertine Red Crosscut Filled

If you're a terracotta fan you will enjoy the dulcet tones of Travertine Red. With a movement-rich design, this marble carries strong pink-red tones throughout each slab.

## Lilac

Lilac marble offers a dramatic look for projects that seek to make a bold statement. High contrast grey veining on a creamy white background interspersed with orange streaks for a natural look are interrupted with striking deep purple-grey veins that draw the eye.

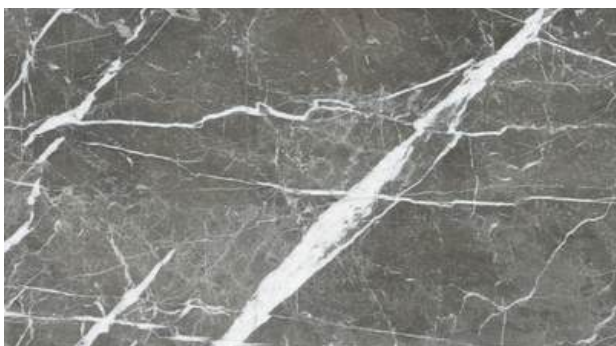

## Matrix

Minimalism meets maximalism with Matrix marble. This richly veined marble offers a riot of movement and texture with its grid-like striations yet appeals to traditionalists with its clean colour palette of neutral earth tones in creamy beige with a cool undertone and fine brown lines.

## Deep River

Deep River marble encapsulates the powerful earth below with lively patterning reminiscent of alive rivers of molten lava running through raw earth. An eruption of ruddy brown quartz streams contrasts against a cool grey background to create a striking display of nature's work.

## Smyrna Grey

Smyrna Grey offers a classic marble look with its dark grey background streaked with fine white veining. This timeless stone brings to mind moody rain clouds, illuminated by flashes of lightning, treading the line between enduring style and accent piece.

## Silver Fantasy Breccia

Silver Fantasy Breccia makes a striking statement with its richly patterned surface created by rocky formations in shades of grey. Variegated stripes fade into one another, resulting in a visual masterpiece created by nature.

## Star Galaxy

This granite is beautifully named and perfectly describes its patterning and character. With a stark black background, the multitude of bronze and gold grains make Star Galaxy look like a star gazing vista from Sutherland, but better!

## Silver Root Leather

Silver Root Leather merges rich, earthy colours with discrete veining resulting in an intriguing texture that mimics the softness of supple leather.

## Nero Dorato Antique

Add depth and accentuate bold interiors with Nero Dorato Antique. This pitch-black stone is streaked with a loose grid-like pattern of rich gold and white veins that together create a timeless antiqued feeling that works beautifully in both Industrial and Modernist inspired spaces.

## Calacatta Borghese

Calacatta Borghese Marble has an elegant look that makes it a classic, yet luxurious natural stone. It exudes a mysterious quality with its varying shades of grey.

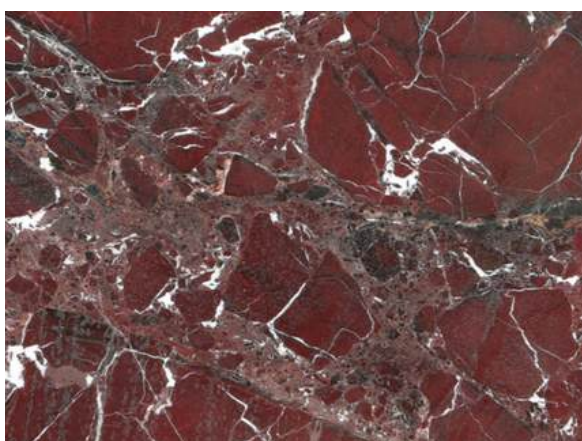

## Marron Emperador Light

Marron Emperador Light is a luxury stone distinguished by its warm, sandy-beige colour. Its smooth, tactile surface is adorned with fine white veins and gentle, natural cracks that lend depth and character.

## Olive Grey

Olive Grey Marble is a light brown countertop with a mixture of white and beige veins. From flooring to wall cladding, this surface is ideal for retail, commercial, and residential applications.

## Rosso Levanto

Rosso Levanto Marble is a red marble with bold white and black vein movement. This natural stone is best suited to bespoke designs with a dramatic aesthetic. A striking, burgundy natural stone, Rosso Levanto Marble gives off the feeling of unmitigated luxury.

## Bronze Fantasy Leather

Bronze Fantasy Leather holds a deep dark brown foundation intertwined with brilliant gold, brown, and white veins, giving it a dramatic look reminiscent of shattered glass.

## Cipollino Rosso Leather

Cipollino Rosso Leather is an abstract masterpiece. Its leathery smooth surface showcases swirling patterns in shades of grey, black, white, and pink, creating a dynamic and chaotic visual effect.

## Eider Ivory Leather

Eider Ivory Leather features delicate swirling veins of darker beige and brown creating a flowing organic pattern. The base colour is neutral beige, with slight tone fluctuations.

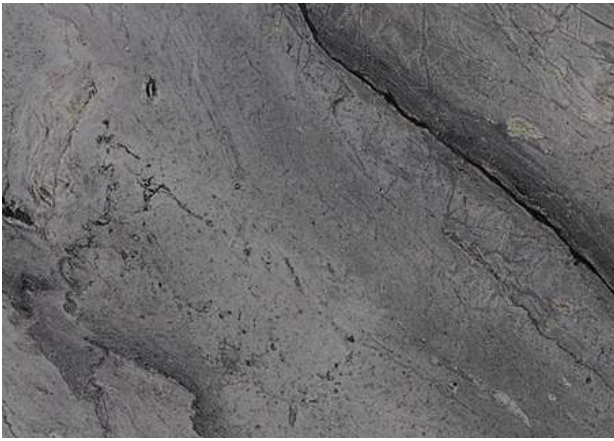

## Elmira Grey

Elmira Grey is a stunning blend of cool grey and subtle pink, adorned with intricate swirling veins and crystalline formations that evoke the delicate beauty of a desert rose.

## Fantastic Grey Leather

Fantastic Grey Leather boasts a rich, dark grey base with striking black veins that resemble flowing rivers. The polished finish creates a luxurious leather-like feel, luring you to touch and explore its textured depths.

## Fantastic Grey

Fantastic Grey displays a striking mix of dark grey and black veins gracefully flowing across the lighter grey background.

---

## Fossil

Fossil is a natural masterpiece that features a breathtaking blend of shades of black and subtle cream patches, creating a sense of depth and intrigue.

---

## Iceberg Blue

Iceberg Blue features a hypnotic blend of calm, cool, icy blues, greys, and gold veins reminiscent of a frozen landscape.

---

## Iceberg Bold Leather

Iceberg Bold Leather's pattern is intricate, with veins of darker grey, gold and white patches creating a swirling, almost chaotic design with a soft and supple leather feel.

---

## Iceberg Bold

Iceberg Bold is distinguished by its neutral light grey background, which is contrasted by dramatic, detailed swirling veins of darker grey and occasional sparkles of white, as well as soft gold with a crystalline texture.

## Rainforest Green Leather

Rainforest Green Leather embodies a rich, deep brown, with streaks of a lighter brown, gold, and even some hints of green and blue flowing through.

## Ravine Leather

Ravine Leather is characterised by a network of delicate, veined lines that create visually striking patterns with a leather texture on a white background.

## Ravine

Ravine's white slightly translucent background allows the intricate grey veins flowing across the surface to stand out.

## Silver Galaxy Leather

Silver Galaxy Leather consists of a leather texture with a light grey background and a swirling pattern of darker grey veins and small, round, brownish dots.

## Vanilla Ice

Vanilla-Ice combines light beige and grey shades with subtle variations, with delicate veining and patches of slightly darker and lighter shades.

## Bianco Cielo

Bianco Cielo is a minimalist masterpiece with a peaceful grey base and modest charcoal marks. Its simple beauty creates a relaxing scene.

## Polar Rosso

Features a mix of earthy tones, including shades of light and dark grey, beige, rust, green, and gold. Its veining pattern is dynamic and organic, with linear and swirling patterns adding depth and movement to the surface.

## Travertine Red Crosscut Unfilled

Vanilla-Ice combines light beige and grey shades with subtle variations, with delicate veining and patches of slightly darker and lighter shades.

## Wooden White

Possesses a warm, light brown with subtle variations in tone. The grain pattern runs horizontally across the surface, creating a slightly wood-like textured look.

## Emerald Green

Emerald Green features a deep green base colour with intricate veining in lighter shades of green and white. The veins create a dynamic, flowing pattern, adding depth and movement to the stone.

## Travertine Vein Cut Filled and Honed

Travertine Vein Cut Filled and Honed showcases a mild linear pattern, on a light beige-coloured background giving it a warm and neutral appearance.

## Travertine Red Crosscut Filled and Honed

With its soft pinkish tone, delicate white and beige veining, and subtle marbling, this stone offers a unique look and feel. The smooth, honed finish enhances its beauty while making it practical for everyday use.

## Ocean Blue Honed

Featuring deep grey tones and bold, organic veining. It adds an industrial edge or soft balance to any space. Its smooth, honed finish enhances the stone's natural texture, creating a refined, matte look perfect for modern interiors.

## Appenino River Leather

Appenino River Leather displays a sophisticated light grey or off-white base, providing a serene and elegant backdrop for an intricate network of reddish-brown veins, ranging from rich rust to soft ochre that run across the surface.

## Bulgari

Bulgari showcases a mosaic-like pattern of warm salmon pinks and pale reddish-orange tones, contrasted with light to deep bluish greys. Irregular fragments create a dynamic look, reminiscent of shattered ice or geological plates.

## Calacatta Arabesque Honed

Calacatta Arabesque Honed has a white base accented with soft grey and light gold veining that naturally draws the eye. It's the perfect choice for creating stylish, modern interiors and is very easy to maintain, all thanks to its honed finish.

## Calacatta Iron

Calacatta Iron is a stunning natural stone that showcases a dramatic interplay of light and dark, with prominent off-white and light grey sections. These are beautifully contrasted by bold, dark brown or black veining and warm, sandy beige accents, creating a truly unique and elegant surface.

## Calacatta Viola Leather

Calacatta Viola Leather is a bold and luxurious marble, featuring a creamy white backdrop intertwined with deep burgundy and soft grey veining. Its dramatic movement makes it a true statement piece for any interior. The refined leathered finish offers a smooth, tactile texture that enhances its beauty.

## Calacatta Viola

Calacatta Viola combines a creamy white base with striking burgundy and grey veining, creating a rich and dramatic effect. Its bold patterns bring natural artistry and timeless elegance to kitchens, bathrooms, and feature walls, making it a perfect choice for sophisticated interiors.

## Creme Marfil

Creme Marfil is a light, warm beige or creamy tan surface. There are subtle variations in tone, with some areas appearing slightly lighter or darker, contributing to a natural, mottled look.

## Travertine Crosscut Filled and Honed

Travertine Crosscut Filled and Honed embraces a warm, light beige base colour with subtle tones that give it a natural, slightly textured look.

## Calacatta Iron

Calacatta Iron is a stunning natural stone that showcases a dramatic interplay of light and dark, with prominent off-white and light grey sections. These are beautifully contrasted by bold, dark brown or black veining and warm, sandy beige accents, creating a truly unique and elegant surface.

## Verde Alpi Leather

Verde Alpi Leather features deep green tones interwoven with bold white veining, reminiscent of nature's untamed beauty. Its leather finish adds a subtle, tactile quality that deepens its visual appeal and improves durability.

## Verde Alpi

Verde Alpi is a dramatic green marble with bold white veining that evokes the raw beauty of nature. Its rich, intricate patterns bring a sense of movement and luxury.

## Travertine Vein Cut Filled and Honed

Travertine Vein Cut Filled and Honed showcases a mild linear pattern, on a light beige-coloured background giving it a warm and neutral appearance.

# Introducing Onyx Slabs

Onyx is a beautiful natural stone with a long history of use for decorative sculptures, jewellery, as well as striking architectural features. Onyx also carries an air of mystique from the many superstitions and beliefs around this semi-precious stone. Today, onyx is a popular choice for interior design – celebrated for its beauty and detail. With its endless array of colours and translucent quality that lends itself to many projects and uses, onyx is still as popular as ever. Learn more about this ancient stone as we look deeper into its past and how we use it today.

# Onyx Collection

## ONICE APEROL

Onice Aperol is an onyx surface radiating warmth through its rich golden and amber tones. Its transparent depths reveal intricate layers and organic white veining, creating a captivating visual narrative.

## ONICE BLACK CLOUD

Embrace the jewel-like qualities of Onice Black Cloud to create design magic in your space. This mesmerising onyx stone has a light grey base swirled with cloudlike patterns of orangey-browns and green-tinged charcoals.

## ONICE PURE WHITE

Anchor a room with Onice Pure White. This striking stone shows its best side when illuminated in a backlit design. The milky opalescent background is broken up by orange-tinged and darker brown multidirectional veining that gives it a deliciously almost edible quality.

# Onyx Collection

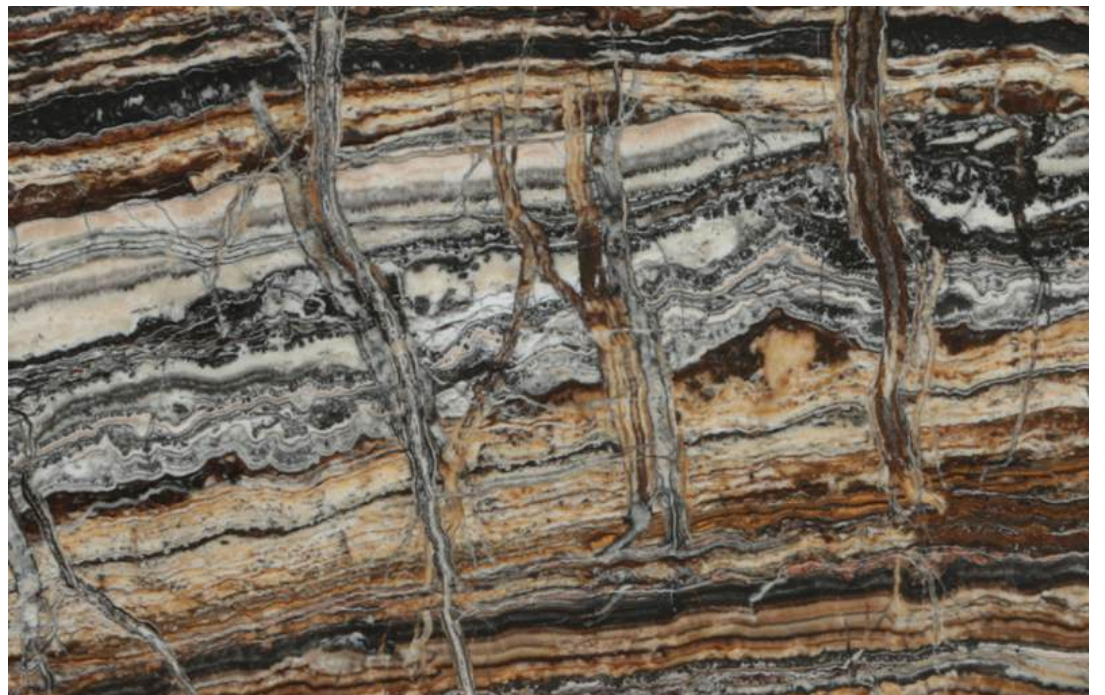

## ONICE GREY WHITE

Lend a Zen-like feel to your space with Onice Grey White. Textural patterning nods to foamy ocean waves crashing on sandy shores, echoed by the neutral creamy white tones and light grey shades, streaked through with more dramatic blooms of dark grey and brown.

## ONICE JURASSIC

Bring this sweeping otherworldly feeling to your space with Onice Jurassic, a vividly patterned stone featuring striking contrasting striations in shades of black, grey, white, and brown, vertically dashed for a primal feel.

## ONICE VERDE

Onice Verde showcases a soft green base with golden, amber, and cream veining, accented by delicate brown-red lines. Its translucent, fluid appearance adds a luxurious and organic touch, perfect for feature walls, countertops, or statement interiors.

# Onyx Collection

## ONICE BIANCO

Onice Bianco showcases a mesmerising mixture of pristine white and creamy brown veins that delicately curve across its soft, milky brown backdrop. The white patches add to its beauty, making it an eye-catching centrepiece for any interior area.

## ONICE BICASSO

Onice Bicasso displays a creamy white base adorned with dramatic, dark veins and intriguing patches. Its luxurious appearance displays nature's creation, making it timeless and elegant.

## ONICE BLUE

Onice Blue is a surface with a subtle, cloudy texture with shades of grey and white, giving it a soft, natural look and a matte finish.

# Onyx Collection

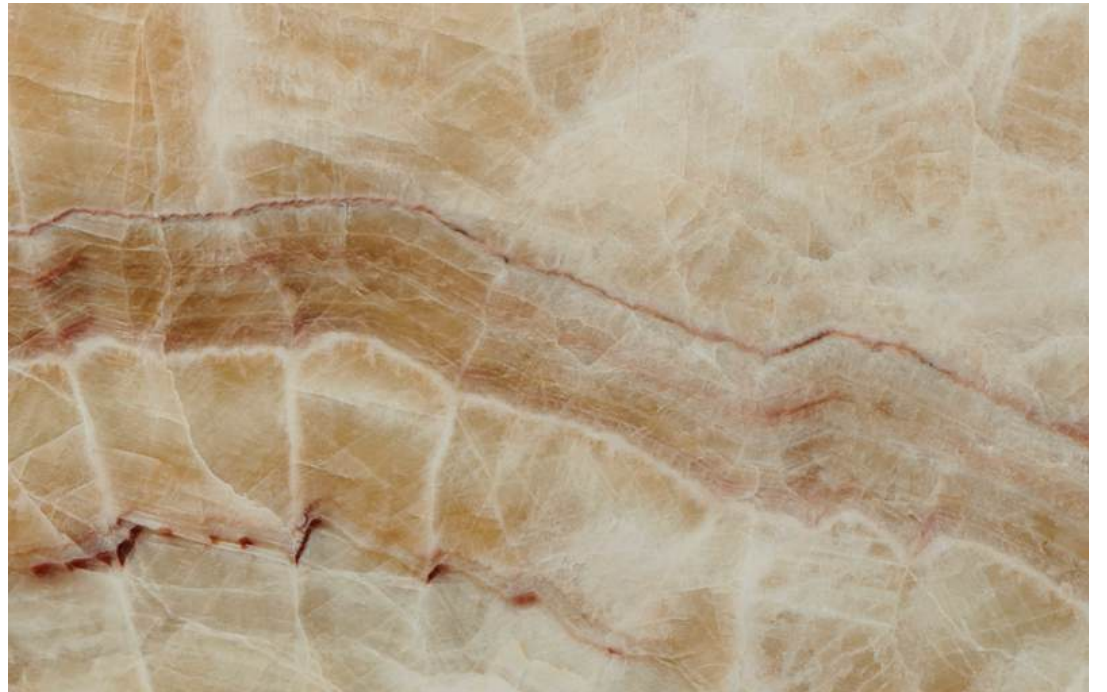

## ONICE GREY WHITE VEIN CUT

Onice Grey White Vein Cut displays a white surface with delicate black and brown vein patterns. The pattern resembles the cross-section of a tree trunk, with the dark veins representing the growth rings.

## ONICE IVORY

Onice Ivory is made up of gently flowing lines that mimic the look of sedimentary rock, giving it an organic and serene appearance. The bands range from light tan to a slightly darker caramel shade, creating a harmonious blend that adds depth and texture.

## ONICE VELLUTO

Onice Velluto's surface is creamy beige, with delicate, flowing brownish veins. The smooth texture and organic patterns create a natural, elegant look, perfect for luxurious interiors like countertops or wall cladding.

# Introducing Quartzite Slabs

is a hard, non-foliated metamorphic rock created when sandstone is subjected to intense heat and pressure, typically deep within the Earth. It consists almost entirely of recrystallized quartz, making it extremely durable, scratch-resistant, and ideal for high-traffic surfaces like kitchen countertops.

# Quartzite Collection

## Verde Roma

Verde Roma captures a rich, dark green background accented by a network of vibrant yellow veins, showcasing the unique beauty and intricate patterns.

## Serafina

Serafina is a stunning natural stone known for its dynamic and fascinating patterns. The surface features a mix of earthy tones, including deep greens, warm browns, soft beiges, and hints of gold, all connected in striking veins and flowing textures.

## Dolce Vita

Dolce Vita is a textured surface with a distinct veined pattern, evoking a sense of age, natural imperfection, and rustic beauty. It invites you to explore the delicate details of the material and appreciate its unique character.

# Quartzite Collection

## Crystallo

Crystallo displays branching dark veins throughout the surface. These veins range in colour from a dark brown to a rusty orange, creating a striking contrast against the lighter background.

## Barcelona

Barcelona has a combination of green, beige, and golden-brown hues, along with unique veining and mottling, creating a timeless and versatile aesthetic for any space. This quartzite is perfect if you want to add some character in your space.

## Antionette

Antionette is adorned with a creamy background and intricate, feathery dark markings. The brown veining against the light background creates a rustic aesthetic and visually pleasing feel.

# Quartzite Collection

## Oro Marron

The luxury Oro Marron stone's ethereal quality makes it one to talk about. The angelic peach and white background is intermittently broken up by darker fissures to create contrast and drama. This stone will bring an authentic organic movement and feeling into your home.

## Breccia Imperial Leather

Be inspired by the natural wonders of nature when you look at Breccia Imperial Leather. This traditional, intense, grey stone mimics an aerial view of the vast ocean, with undertones of blue and green, broken up by white flecks in the stone. This stone is especially good for countertops, interior wall applications, and other design projects.

## Avocatus Leather

Bold, dark and dramatic, Avocatus Leather is not for playing it safe. Create a stand-out design with this unique stone featuring vivid splashes of avocado green, dark grey, and pops of bright white with a leather-like look and texture. Use this dramatic stone to complement and elevate moody interiors.

# Quartzite Collection

## Wild Olive Leather

Wild Olive Leather transports the senses to a quiet olive grove on the Italian coast. Its muted green hues streaked with creamy white striations play nicely with brass fittings and hardware. Combine Wild Olive Leather with natural materials for a grounded, calming aesthetic. A leather finish gives this stone a matte textured look and feel.

## Super White

Super White brings a touch of subtle drama to your space, with sweeping veins in various shades of grey. Neutral tones like this bring a sense of calm and luxury to your interiors, and are extremely versatile to match a variety of decor items and trends.

# Introducing Hardbody Porcelain Tiles

Hardbody porcelain tiles are exceptionally durable, high-density tiles fired at high temperatures to create a product that sits between standard ceramic and premium porcelain. They are designed for high-traffic residential and light commercial use, offering superior strength and stain resistance, often featuring rectified edges for modern, minimal-grout installations
